

# Power Beyond The Grid

Windlift delivers reliable airborne wind energy anywhere in the world, whenever power is needed most.

On the most remote military bases, under the most challenging circumstances, and in the least hospitable environments on the planet, Windlift airborne wind energy solutions are engineered to perform at the highest levels.

**Mobile:** Travels anywhere in the world humans can go

**Agile:** Deploys quickly and easily, generating power in 30 minutes

**Persistent:** Captures and stores wind energy 24/7 in most conditions

**Affordable:** Operates efficiently and cost-effectively

**Capable:** Meets industry's evolving demands and highest standards

**Versatile:** Supports payload enhancements for increased functionality

**Durable:** Runs continuously for five years without maintenance
