About GIF

Learn more about the Generation IV International Forum, its organisation, its members, its projects.

THE GENERATION IV INTERNATIONAL FORUM (GIF)

Established in 2001, the Generation IV International Forum (GIF) was created as a co-operative international endeavour

GIF History and Achievements

seeking to develop the research necessary to test the feasibility and performance of fourth generation nuclear systems, and to make them available for industrial deployment by 2030.

GIF Organisation and

The GIF brings together 13 countries (Argentina, Australia, Brazil, Canada, China, France, Japan, Korea, Russia, South Africa, Switzerland, the United Kingdom and the United States), as well as Euratom – representing the 27 European Union members – to co-ordinate research and development on these systems.

GIF Leadership

The GIF has selected six reactor technologies for further research and development: the gas-cooled fast reactor (GFR), the lead-cooled fast reactor (LFR), the molten salt reactor (MSR), the sodium-cooled fast reactor (SFR), the supercritical-water-cooled reactor (SCWR) and the very high-temperature reactor (VHTR).

GIF Membership

The OECD Nuclear Energy Agency (NEA) serves as technical secretariat to

GIF Technical
Secretariat

GIF Senior Industry
Advisory Panel
(SIAP)

GIF.
